Orders may be sent at your store, or to the subscriber.

FENNO & ALLEN.

Professor Humphrey's SPECIFIC Homœopathic Medicines,

FOR.....

Families, Travelers, and others

Medicines have been carefully prepared with a view of supplying families and individuals with only remedies for all ordinary diseases which occur in their daily practice, such as Coughs, Colds, Headaches, Derangements of the Stomach, Worms, Complaints, Diarrhœa, &c., and more sudden and violent diseases, Cholera, Dysentery, Inflammations, &c., for whose treatment it is very necessary to have the proper remedies on hand. We are also remedies for those more chronic derangements which a lady finds to disclose, such as freedom from sickness, &c., and Partial Blindness, &c., which arise from the abstraction of these fluids.

Specifics are prepared, in the form of pellets, one of which is sufficient for a dose, and put up in boxes properly labelled. Each box contains 50 or 60 Pellets, and the different kinds, are enclosed in a separate with a small Manual or Book of Directions, giving a concise description of the disease, and directions for giving the remedy, &c., necessary for a cure. Cases, containing four or six of the small boxes, are also put up, which may be supplied with any of the Specifics at the option of the purchaser.

Humphrey's Homœopathic Manual of Specific Homœopathic Medicines, containing other Homœopathic Medicines, will be recommended for twenty will be recommended for Fever, Ague, Headache, diarrhœa, or fever, &c.

Those who are desired to use Homœopathic Medicines, and discrimination is required to be used, but here you have a Specific for each particular disease, and hence are enabled with benefit and precision without study which the business man has not time to bestow, and without that responsibility and examination which, to the mother, child, is so perplexing, annoying, and distressing. The advantages are so obvious as to them to all.

Dr. F. HUMPHREY, Auburn,

Sold by C. B. WALKER, Agent, for Bangor, Main street.

SIXTH SEASON

—OF—

OLIVER A. LUNT'S Dancing Academy!

Lewis' Block—Main St.

JUVENILE CLASSES will commence on WEDNESDAY, Sept. 10th, at 2 o'clock P. M. Adult Classes can be formed to suit the convenience of pupils. The subscriber must happy to inform his patrons, and the public generally, that he will present to them the latest and most fashionable styles of Dancing now taught.

Among the new Dances are several which are now taught in the first Schools of London and Paris. These include the Varsovienne, Lasks, Redowa Waltz, Esmeralda, and the various forms of Polka and Redowa Dances.

The Lancers, Quadrilles and Waltzes will also be introduced, which, with the superior advantages offered pupils for practice, will, I am hoped, meet the approbation of all.

For terms, please apply at the subscriber's at the Hall, Lewis' Block, Main street.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and in no open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches leave always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

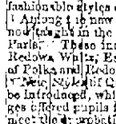
By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PARRY, Jr.

Bangor, Feb. 26, 1856.

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.



G. W. RICKER, would respectfully announce to the Travelling Public that he has reopened the Stanley House, Augusta NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons traveling for pleasure will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

Try it! Try it!! Try it!!!

G. W. STONE'S

LIQUID ATHARTI

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Herbs and Roots, which for real the most powerful, safe, and agreeable purgative ever offered to the public.

THE necessity of such a medicine has been felt both by the learned faculties and by patients, its advantages over calomel, and all other Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It instantly professes the effects where physic is required, but gently removes the most inveterate costiveness, leaving the bowels perfectly free. It expels all impurities from the blood, is a certain cure for or Piles, Remittent fever, action of the Liver, foul stomach, fetid breath, living worms, the whole Nervous system, and restores the cause of all local pains, such as *Rheumatism, Neuralgia, Pain, Dolourous, Gout, Pains in the Head, Side, Stomach, &c. &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA AND CHOLERA MORBUS, yield at once to its magical influence. Again and again it has proved itself worthy of confidence. No family will be without it, for they have proved its merits. Reader, if you have tried other remedies without success, despair not—call it now at hand. Are you suffering from Sores in six bottles of my Liquid Cathartic will prove you. Would you be relieved from Costiveness, three bottles will effect that object. All humors will be eradicated from the blood by the use of from one to six bottles, in short, if you require a pill for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1,00.

Principal Depot No. 30 Central Street, Lowell, Mass.

☞ Sold by Druggists generally.

IMPORTANT NOTICE.

GARDNER CHILSON, has just completed and has patented in America, England, and France, his new Invention—THE "CONFERNACE"—and asks the special attention of those about erecting or remodeling buildings, as well as dealers in Hot Air, Steam or Hot Water Furnaces, and all interested in Steam Power, to carefully examine this invention, which entirely *changes the principle and character of Hot Air Furnaces, developing one new and a new principle*, and obviating all former objections to their use. The practical operations of a number of these Furnaces erected during the past winter, points out a new discovery in science by which the most wonderful economy in fuel has been obtained, and clearly demonstrates that the waste heat from chimneys is entirely saved by the Chilson Furnace. By this invent on the heat formerly lost is made to warm the house.

This discovery—simple in itself—is the daily wonder of those who witness its results, and it becomes a matter of surprise that a plan so simple and so practical in its operation, should thus far have entirely escaped the notice of scientific men. We believe that no new wood investigates this principle will be liable to cause a Furnace constructed on any other principle, and we invite all who are intending to put in a Furnace to call and examine them at my store before deciding.

Albert Noyes,

Nos 13, 15, and 17 Centre-st., Bangor.

aug28 2m

A GOOD CLEANSING BITTER.

To be Taken in the Spring.

BE kind enough, reader to give your attention one moment, and you will learn what

C. A. RICHARDS'

ABBOTT BITTERS

ARE GOOD FOR.

They have been made on hand 40 years—eight years by the present proprietor, and he puts this forth with the confidence he has in the medicine knowing that they have cured and helped thousands, yea, thousands of cases of

INDIGESTION,

Nervous Debility, Sickness of the Stomach Derangement of the Di-Water Head, Humors, Digestive Functions, Colds and Coughs, Depression of Mind and Clairvoyance, Jaundice, Spirits, Flatulency, Rheumatism Oppression after eating, Female Obstructions, Cold Stomach, Loss of Appetite, Pain in the Side,

—AND—

Torpor of the Liver and Bowels.

Reader if you are appealed to earnestly. Don't say, "I could not believe this to be true" I have some of the above complaints, and I would take the medicine at once if I could only have confidence. IT IS TRUE: It is an honest truth, if ever there was one spoken. Come then, if your mind is irritable, discontented, and gloomy—you have severe Colic Pains after eating your food—if your body begins to waste, or your strength to fail you—if your countenance assumes a haggard and sallow aspect—if you have a difficulty in lying on your left side—if your skin is dry and shrivelled—if you have an appetite weak and variable, and perhaps entirely destroyed—if your whole system is languid, especially during the process of digestion—if you have a constant uneasy feeling in the stomach—why, you have only a fit of INDIGESTION! and these great Bitters are made to cure Indigestion, and they will do it, too—and all attendant ills; and while at first it gently stimulates the stomach, cleansing and removing these troublesome agents.

IT ACTS UPON THE SKIN,

Removing morbid or vitiated Humors, beautifying the face, kindling life and energy in your entire frame; then, reader, will the world no *longer look dark and gloomy; no longer* will your dear at homes be banished and thrust aside, but with

HEALTH AND STRENGTH

You will go forth into the world, to say with thousands of others, C. A. RICHARDS' Abbott Bitters have done wonders for me." The label is copyrighted, and each bottle, for the protection of the consumers and proprietor, bears the paraph of Doctor Wm Abbott, together with the signature of C. A. RICHARDS, Proprietor,

80 *State Street, Boston.*

GREAT American and Foreign Office

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements, whereby, on application, prepared and conducted by him, TWENTY DOLLARS (instead of *twenty, as paid heretofore by others.*) will be required by him in cases of failure to obtain a patent, and the withdrawal through him, within thirty days after the rejection.

The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and A SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full records of patents, granted in the United States and European countries, enable him to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents procured in Great Britain, France, and other foreign countries, through agencies of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as solicitor; and from what I there saw of his abilities, and from other sources of information, I regard him as one of the most learned and most skilful Patent solicitors in the country. I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable action at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"Answer, 17, '55.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a solicitor. He is thoroughly acquainted with the laws, and principles of patentee ship cases. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained of large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old and slow and imperfect methods.

Free Kansas Meeting.

THURSDAY EVENING, October 23, at 7 o'clock, at the City Hall, DR. CUTTER will address the citizens of Bangor upon the condition of Kansas, and the AID essential to secure Free Soil to Kansas and the country.

Dr. Cutter served as Captain of the Free State Kansas Volunteers during the late battles in Kansas, and returned from there during the present month.

All are invited to attend.

Ladies Kansas Aid Meeting.

At the first Parish Vestry, at 2½ o'clock, P.M., THURSDAY, Oct. 23d. Mrs. Dr. Cutter will address the ladies of Bangor upon the condition and wants of the women and children of Kansas. Mrs. Cutter returned from Kansas in September. In Missouri she was made a prisoner by the Border Ruffians.

Ladies are invited to attend.

Freedom in North Carolina.

PROFESSOR HEDRICK OF THE STATE UNIVERSITY OUT FOR FREMONT—WILL SLAVERY DO IT.

Prof. R. S. Hedrick of the State University of North Carolina, has pronounced in favor of Fremont, and in consequence of that act has raised up bitter enemies, who denounce him fiercely, and so far as to demand his expulsion from the College, on the ground that his opinions render him unfit to be an instructor of youth! The Raleigh Standard (Buchanan) publishes a letter from the Professor, which is styled a "Defence" against certain articles in that paper over the signature of "Alcuinus." The letter gives a new view of the practical workings of Slavery.

We give some extracts from the latter, of Prof. Hedrick:

He says, "To make the matter short, I am in favor of the election of Fremont to the Presidency," and he gives his reasons for it:

"1st, Because I like the man;

"2d, Because Fremont is on the right side of the great question which now disturbs the public peace. Opposition to Slavery extension is neither a Northern or a sectional idea. It originated with the great Southern statesmen of the Revolution. Washington, Jefferson, Patrick Henry, Madison, and Randolph were all opposed to Slavery in the abstract, and were all opposed to admitting it into new territory. What was true in Jefferson's time is true now. I might go on and give "Alcuinus" every week from now till the election, a column of good Black Republican" documents, all written by the most eminent Southern statesmen, beginning with Washington, and including nearly all the statesmen of nobility, virtue and patriotism, coming down to our own times. No longer ago than 1850, Henry Clay declared in the Senate: 'I never can and never will vote one foot of territory where it does not exist.' At the same time, that Clay was opposed to Slavery, he was, like Fremont, opposed to the last interference by the General Government with Slavery in the States where it exists. With Washington, Jefferson, Franklin, Henry, Randolph, Clay, and Webster for political teachers, I cannot believe that Slavery is preferable to Freedom, or that Slavery extension is one of the constitutional rights of the South.

"When I was a student in College, a few years ago, the young politicians used to debate in the 'halls' of the societies the same questions which the old politicians were debating in the halls of Congress. The side which opposed Slavery in the abstract generally had the books in their favor, and as the records of the society will show, they had quite often the best of the arguments. So that when Col. Fremont said that he was opposed to Slavery in the abstract, and upon principle, sustained and made habitual by long settled convictions, he but uttered the sentiments of four-fifths of the great Southern patriots from the Revolution down to the present day; and I may add, of the majority of the people among whom I was born and educated. Of my neighbors, friends and kindred, nearly one-half have, of the State since I was old enough to remember. Many is the time I have stood by the loaded emigrant wagon, and given the parting hand to those whose face I was never to look upon again. They were going to seek homes in the free West, knowing, as they did, that free and slave labor could not both exist and prosper in the same community. If any one thinks that I speak without knowledge, let him refer to the last census. He will there find that in 1850 there were fifty-eight thousand native North Carolinians in the Free States of the West—Thirty-three thousand in Indiana alone. There were, at the same time, one hundred and eighty thousand Virginians living in the Free States. Now, if those people were so much in love with the 'institution,' why did not they remain where they could enjoy its blessings?

"Our fathers fought for freedom, and one of the tyrannical acts which they threw in the teeth of Great Britain was that she forced Slavery upon the colonies against their will.—Now, the Secessionists are trying to dissolve the Union because they are not permitted to establish Slavery in the Territory of Kansas. If the institution of Slavery is a thing good and desirable in itself, it is the easiest thing in the world for the people to vote for its introduction at any time after they have formed a Constitution and been admitted as a State. If it is not a thing good and desirable, it would be an act of oppression to force it upon them. For, however any one may lament the evils of Slavery, it is *almost impossible to get rid of the system when once introduced.* Nullify it by law if you will, still the evil remains, perhaps aggravated. But *in a new State a few words in the Constitution may prevent the entire evil from entering.*"

From my knowledge of the people of North Carolina, I believe that the majority of them who will go to Kansas during the next five years *would prefer that it should be a free State. I am sure that if I were to go there, I should vote to exclude Slavery. In doing so, I believe that I should conceive the best interest of Kansas.*

The sequel to this brave and noble stand taken by Prof. Hedrick is foreseen in the statement of the Richmond Dispatch, that "the faculty of the University of N. Carolina held a meeting on the 6th inst., and republished the political sentiments advocated by Prof. Hedricks, who avows himself in favor of Fremont. The Trustees of the University, it is understood, will expel him." On Saturday night, the 3d inst., Prof. H. was burnt in effigy in the College Campus, and a bell was tolled until the effigy was consumed. The Wilmington Herald says: "We learn from one or two sources that Mr. Hedricks was burnt in effigy on the College Campus, and the bell was tolled until the effigy was consumed. We take occasion express our disapproval of this act. Mr. Hedricks, it is evident must either resign or be dismissed, as his organ continuance in the office he now holds will be prejudicial to the University. Let him go quietly and wit vout any violent demonstration. If his usefulness as a Professor is gone, the Executive Committee can procure a more suitable person to fill his place. But don't make a martyr of him."

The Republicans Awake.

During the crazy jubilee of the Buchaneers on Tuesday over the, over their semi-defeat in Pennsylvania, the Republicans were holding one of the most enthusiastic meetings of the whole campaign at the Hall of the Fremont Club. The most determined and sanguine spirit was manifested, and those of our opponents who chanced to look in, or to hear the out-burst of applause for the speakers, at once perceived that their inveterment in tar, feathers and tallow candles was worse than thrown away. The attempt at intimidation has aroused the Republicans of Bangor to renewed zeal and hopefulness in the great cause of freedom.

The meeting at the club room was forcibly addressed by Dr. Cutter of Kansas, Hon. Edward Kent, and by various working members of the Club. It was determined to have a public meeting and a grand rally with distinguished speakers, some time next week, probably on Tuesday evening.

The Republican Spirit Abroad

The friends of freedom in Connecticut seem to have lost none of their courage or determination from the frantic attempts of the pro-slavery party to create a victory out of the result in Pennsylvania. The largest meeting during the whole campaign was held at the Fremont Camp in Hartford, on the evening of the 20th inst to hear Gov. Robinson of Kansas. At the close of the meeting, an impromptu torchlight procession was got up, which was nearly a mile in length. The greatest enthusiasm was manifested.

A large number of the oldest and most respectable citizens walked in the procession, and many thousands of people were in the streets sympathizing with the demonstration.

LOUISIANA. It seems the Border Ruffian emigration system was the effective agent in carrying the Indiana as well as the Pennsylvania elections for the pro-slavery ticket, by a small majority. The system has become exceedingly popular with the party since its great success with which it was used in "stamping" Kansas against the free-State men.—The Indianapolis *Journal* editor comments upon the result in Indiana, says:

"We are not yet sufficiently advised, as to the result in different sections to speak of the causes that produced it, but we know that in some of the counties in the North, Northeast, and along the Wabash improvements were heavy, and hardly attempted to be concealed. The result in Laporte, Fountain, Warren, Tippecanoe, Wabash, Allen and other Northern counties is the notable contrary to this cause.

"There have been other causes co-operating with this, of which we shall take occasion to speak at length very soon. Suffice it to say, that after careful consideration of all the circumstances of the contest, and of the result as known and indicated, we feel *sure that the Republican strength is sufficient to carry the State for Fremont.*

What the Slaveholders would do if they could catch us on South!

Senator Wilson has recently received the following letter from Texas. Enclosed with it was a small package of ashes:

EAGLE PASS (Texas,) Sept. 11, 1856.

MR. H. WILSON: SIR—Your speeches have been received here, and the loving you to be an unmitigated black republican scoundrel, I enclose you some of the ashes, in order that you may judge what would be done with you had we you in this part of the world.

WILLIAM STONE.

What Difference Three Weeks makes in Democratic Victories in Pennsylvania.

In October, 1843, the Whig vote in Pennsylvania on Congressmen was 126,532

Losing the State by 4,649.

But, in November, 1840, the Whig vote for President was 144,021

Winning the State by 349.

In October, 1844, the Whig vote on Governor was 153,120

But, in November, 1844, the Whig vote for President was 161,203

Showing a gain of 5,083.

In October, 1848, the Whig vote on Canal Commissioner was 164,285

The Democratic Candidate being elected by 2,636.

But in November, 1848, the Whig vote for Gen. Taylor for President was 185,613

Carrying the State by 14,337.

In October, 1852 the Whig vote on Canal Commissioner was 151,000

But, in November, the Whig vote for Gen Scott for President was 179,122

Showing a gain of 27,622.

A wrought iron cannon, has been manufactured in Liverpool, England, which weighs twenty-two tons, and sends a ball of three hundred pounds weight a distance of four miles.

LOSS OF $1000.—A horse on the agricultural grounds on Boston Neck, while practising last week took fright and running twice around the course stumbled and broke his neck; his owner had refused $1000 for him.

MEETING FOR KANSAS. We call attention to the meetings advertised for this (Thursday) afternoon and evening to obtain aid for the suffering and starving people of Kansas. Dr. Cutter addresses a meeting at City Hall in the evening, and Mrs. Cutter addresses the ladies in the afternoon at the vestry of the First Parish Church.

Dr. Cutter served as a captain in the Kansas Volunteers for the defence of free Kansas during the late battles. He knows the pitiable condition of the people there, and will show with truthfulness how shamefully those have been treated who have opposed the establishment of slavery.

The Buchanan torch-light procession on Tuesday evening visited the scattering houses which were illuminated in different parts of the city the boys cheering the occupants at the word given out by Capt. Swett. Some speeches were given in reply—among others, one by that very intense *Straight, Whig*, Abraham Sanborn, Esq., who is now nevertheless a fierce Buchanan man. Among the most effective speeches of the evening, was that of Mrs. McCann at the foot of Union Street.

ABRAHAM PAN HOMBEL HUMPHANIUM. We are informed that some persons in the Buchanan torch-light procession of Tuesday evening, *attempted to burn the boys' Fremont flags* on State Street, and it one or two other localities, as they passed underneath with their torches. These cheap inconsistencies are unworthy of their illustrious Missouri prototypes at Lawrence.

A FAINT IMITATION. One of the more unsophisticated of our opponents, walking down the street with a Republican, on the evening of the Buchanan jubilee, pointed to a burning tar-barrel in the square, and innocently inquired "What is that for?"

"Oh," replied the Republican "*they are only trying to imitate the burning of Lawrence.*"

YOUNG MEN'S ASSOCIATION. The Address which was to have been delivered by Rev. Mr. Cornwall on Tuesday evening, is postponed to Friday evening, when it will be delivered at the City Hall.

All are invited to attend.

PERVERTED NATIONAL. The Philadelphia Times states that the Buchanan parade in front of the Pennsylvanian office, on Thursday night, gave *three cheers for Preston S. Brooks of South Carolina.* No hiring could have been more natural. The hired ruffians who swelled up the vote of Philadelphia so much beyond its legal dimensions, were just the boys to cheer Bully Brooks.

We take pleasure in calling the attention of our readers to the advertisement of Rosemary in this paper. Mr. J. Russell Spalding, the gentlemanly proprietor of this far-famed article for the hair, informs us that one million bottles have been sold. This fact commends the article without further encomiums. It can be obtained of dealers almost everywhere, or at Mr. Spalding's office, 27 Tremont Street, Boston.

Edward D. Peters, Esq., of Boston, no long and extensively known in the bank business, died in that city on the 21st inst.

The Direct Vote in November.

The Black Democracy are in paroxysms of exultation. Their frantic exclamations show how great had been their recent alarm. Compare the rolling vote with that of February last among their ranks, and the amazing growth of the Republican party will be measured. Pennsylvania and Indiana, that voted so heavily for General Pierce, are saved (by a meagre majority). Let those Republicans who feel despondency remember that in both of these States tens of thousands among Democrats support Col. Fremont because he is a true Democrat of the Jefferson and Jackson school, but vote with their old associates upon matters of canal and financial and domestic policy within their own States. Let them recall among their own friends the many, who, disliking the turmoil and excitement of a local election, will, at all hazards, vote for Freedom when the true issue comes up. Why, in one year this Free-Soil child has become a giant! A Wise Providence, in momentarily stopping the tide of reasonable to Slavery extension, is but giving the fire the flood to strengthen. To check local defeat will banish that carelessness and confidence which infested the Republican ranks.—To dread defeat, and to realize the full influence of disaster, are often more favorable to the development of the soldier than to confidently expect victory. It was the dread and realization which nerved their opponents in Southern Indiana and Eastern Pennsylvania. Every vote for Slavery in those States has been brought out; but there are forces of Freedom yet in reserve, and there is time yet for a strong pull altogether.—*N. Y. Times.*

A PROPHETIC PAIR.—In the church of St. Nicholas, at Ghent, there is a table to the memory of Oliver Minjau and Amalberga Steingert, his wife who were the parents of 21 children, 21 boys and 10 girls. Old Oliver appeared at the head of 21 sons all in uniform, when Charles V. made his entry into Ghent as Count Flanders. The 31 children of this Ghent couple were carried off together in 1520 by the *sueste*, which we have no difficulty (as it is called the newly imported English disease) in recognising the black sweat of England. Minjau and his wife died within a few weeks after the loss of all their children, among whom they lie interred. Their monument is the most affecting of the many memorials raised to the popular Ghent.

Great danger says the Medical World is incurred by the reckless handling of guano.—Cases have occurred of persons having cuts upon their fingers, who handling this manure, have received a deadly poison into the system. Guano contains an organic element which is just as certain to operate against life, if it once reaches the blood, as the corruption of a body that gets into a wound upon the person of the dissector. Farmers should be aware of this fact and be cautious.

SNOW IN NEW HAMPSHIRE. The White Mountain Banner says:

The first snow of the season fell at the White Mountains on Monday evening last.—Mt. Lafayette, of the Franconia range of mountains, is also covered with the white mantle of winter. The snow has not held off so long at the mountains for quite a number of years.

A Chicago broker famous for his shrewdness, took a trip by railroad the other day, and set down at the end of the last car, because he considered the use of the money worth something while the conductor was coming through the train.

The Colonization and Missionary Ship.

To the Editor of the Whig and Courier.

This fine ship of 650 tons, the gift to the American Colonization Society of the late Mr. John Stevens, a citizen of Maryland, is about to be launched at Baltimore, placed by the Trustees in the hands of that Society, and sail with emigrants on her first voyage to Liberia. She will take her departure from Baltimore between the 25th of November and the 1st of December. Dr. James Hall, one of the Trustees of the fund expended in the construction of this ship, and who has watched over her since the keel was laid, and secured some very liberal contributions to make her accommodations most convenient and complete and who so early labors in former years in Africa, as well as since for the cause, in this country are well known, has been invited by the Executive Committee to visit Liberia in this ship, and arrange all business matters there in anticipation of her regular intercourse twice a year, with that Republic. It is expected that she will visit all the settlements, accommodate transient passengers between these settlements, have full time on the coast to discharge and receive cargo, and be in the United States port; ready to receive freight and emigrants at the appointed time, so that "no disappointment, delay, or hindrance may be experienced," as most frequently occur when three voyages per annum are attempted. Dr. Hall, in an interesting article on this ship, in the Maryland Colonization Journal, represents her as capable of carrying 300 emigrants as steerage passengers, all told, and 10 first class cabin passengers, with every arrangement, precaution and preparation for the health and comfort of all. "He adds," we calculate the ship will be able to take on an average about 1600 barrels in bulk of freight out at each voyage, besides emigrants, effects, provisions and shipments necessarily made by the Society. That the Society may not suffer for lack of this freight, it is desirable that contracts should, if practicable, be made with associations or individuals for a given amount of freight at each voyage—or for all freight any party may have occasion to send, that could as well be sent by this ship. It is very desirable in all respects and most in harmony with the objects of this Society, that contracts of this nature should be made first with the Missionary Societies, especially those having missions within the colonies or their influence—and no doubt all such associations would rather see the Colonization Society should have any benefit that might accrue from their freight than other parties. The Society, too, may with confidence expect the patronage of all the Missionary Societies in taking their passengers, not only to and from Liberia, as occasion may require, but while on the coast passing up and down from port to port." The proposition has been entertained and strongly advocated of building a vessel for the express use of the various missionaries of different denominations in Africa, to transport them to and from their business or state of health may require. Probably the great expense necessarily attendant upon the measure, was the sole cause of its not being adopted. We trust that the Society's ship will go forth to supply this desideratum, her arrangements for cabin passengers having been made at great expense, for this express purpose. She has a full poop deck—ninety 42 feet in length, with very large, well ventilated state rooms, a bathing room, and every arrangement calculated to render an invalid passenger comfortable. In each voyage she will visit all the settlements twice, remaining from four to six weeks on the coast, thereby affording as much time for an excursion as any one would likely to be able to spare from their duties on shore—especially if indulged in twice a year. We hope the Secretaries of the Missionary Societies will early make arrangements with the American Colonization Society to secure the advantages which the ship offers for purposes above specified. On her return voyage the ship will be able to take at least 2500 barrels freight in her lower hold, quite equal, no doubt, to all demands at any one voyage."

The above statement is (by my request) from the office of the Colonization Society at Washington, and in addition, that some *five hundred applicants are now on our books* for emigrants, and how many of them will be able to go, depends on the generous assistance of our friends in Maine and throughout the whole country.

GEO. GE BARKER.

Agent American Colonization Society.

Will papers of a liberal inclinations friendly to Africa please contribute the insertion of the above? G. B.

STEAMSHIPS, RAILROADS AND TELEGRAPHS.—Before the year 1800, there was not a single steamboat in existence, and the application of steam to machinery was unknown. Fulton launched the first steamboat in 1804; now there are 3000 steamboats traversing the waters of America, and the time saved in travel is 70 per cent. In 1800 there was not a single railroad in the world. In the United States alone there are now 5,761 miles of railroad, costing $200,000,000 to build, and carry 22,000,000 miles in England and America. The locomotive will now travel in an hour hours a distance which required in 1800 an entire day to accomplish. In 1800 it took weeks to convey intelligence between Philadelphia and New Orleans; now it can be accomplished in minutes by the electric telegraph, which only had its beginning in 1843.

ACCIDENT. Yesterday noon a little son of Mr. N. H. Bragg, on coming out of school on Bower street, was kicked in the face by a horse that was running loose in the road, making a considerable wound upon this forehead and upon the mouth, severely injuring if not breaking his jaw.—*Journal.*

The Viceroy of Egypt has determined to establish steam communication between various points on the shores of the Red Sea, and has chartered a steam navigation company, with a capital of ten millions, of which the Government will furnish three millions. The enterprise will be under the direction of Mustapha Bey, the nephew of the Viceroy.

The clock business of Connecticut, which has been driven so extensively for several years, has completely run down. These clocks have been sent into every part of the world, and among the largest markets for them were Great Britain and Cuba. The great competition forced prices so low that the largest portion of the manufacturers have failed.

As real, an eminent English pathologist, has given it as his opinion that hemorrhage occurs in about five cases out of six of those who die of consumption. Louis, an eminent French writer, has found it in fifty-seven out of eighty-seven cases; and Professor Walsh, of the London Consumptive Hospital, in eighty-one cases out of a hundred.

WEEL ORGANIZED CITY. There are 4382 hand organs ground in the streets of New York city, daily.

The schoolmaster who logs the boy feels it a great deal more than the boy he is flogging—at least he always says so.

Compliments are pleasant as bubbles, blown with the aid of soft soap.

Women dread a wife as they do a ghost; they are afraid it should get out and injure some one.

When a lazy man says—"I'll do it at my leisure," you may be sure he'll never do it at all.

One of the Cigars.

A New York physician tells the following story:

Two or three years ago, a Spaniard from Cuba came to this city to be treated for a disease of the lungs. He came to Dr. M—— described his symptoms, and put himself in the doctor's hands.

"Well," said the doctor, "if I undertake your cure, I shall be obliged to impose one condition—and that is rather a hard one for you to comply with."

"What is it?" said the Cuban.

"That you entirely cease smoking till I give you permission to resume."

"Never! I'd rather let the thing kill me.—What pleasure is there in life if one cannot smoke?"

The doctor was a smoker himself, and felt some sympathy. So he said:

"Well, perhaps this is beyond your power. But you must solemnly promise me to smoke but one cigar per day, or I will not undertake your case."

The Cuban promised. It was his only chance. Four or five days afterwards the doctor thought he would call upon him as he passed his house, and thus save him a walk to the office for the day. He walked up stairs—knocked—"Come in"—behold the Cuban with a cigar about eighteen inches long and a proportionate thickness! He confessed that he had that brand made to order for him—but, said he:

"Doctor, I smoke but one a day, as I promised."

Mercantile Lectures.

The Committee from the Mercantile Association announce that the 6th Annual Public Course of Lectures, consisting of twelve, will commence on THURSDAY EVENING, December 4th, at Norombega Hall. Tickets for the Course One Dollar—at the Bookstores, Bangor and Dwinal Houses. The programme for the Lectures will be announced at an early day.

BOOK-BINDING

ESTABLISHMENT,

16 West Market Square,

BANGOR, Me.

THE undersigned begs leave to inform his friends and the public that he has established himself at the above named place, and is prepared to execute *BOOK-BINDING* in all its branches. An intimate knowledge of the business, derived from many years experience, and the possession of complete facilities, will no doubt enable him to perform his work with satisfaction, elegance, and durability.

Orders from the country are respectfully solicited. Particular attention will be given to Harper's Magazine and Music. Other Periodicals will likewise receive prompt attention.

BLANK BOOKS.

Blank Books made to order. Those in want of good Blank Books will find it to their advantage to call before purchasing of cheaper manufacturers.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacture often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a fruit and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, and to perform substantial work. The truth is, a family sewing machine ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for use, besides, Tucking, Trimming, Pin, Cake Fish, Set ter, and Table Knives, Spoons and Forks, of all styles.

THE DAILY WHIG AND COURIER

LATER FROM EUROPE.

ARRIVAL OF THE

City of Baltimore,

AT PHILADELPHIA.

PHILADELPHIA, Oct. 22.

The steamer City of Baltimore, from Liverpool the 11th inst., arrived here this afternoon. Her dates are the same as those brought by the Niagara, whose commercial report we telegraphed from Quebec.

By the City of Baltimore we have the following summary of news:

The Bank of England has advanced its rates of per cent. for bills of longer date than 2 per cent. in consequence of advices from Paris and, in consequence of advices from Paris and Hamburg that the Bank of France had refused to admit notes to discount if more than 3 days to run, and to limit the advances on public securities to 40 per cent. of their value and on railway shares to 20 per cent.

The Paris correspondent in Paris on the 9th says the Bourse rallied under the effect of the report of the Minister of Finance, and restored confidence.

In reference to the exaggerated rumors circulated for several days, the London Times says the effects of the measure adopted by the Bank of England, is complete, and that all pressure, both at the bank and discount market has subsided, and foreign exchanges received a favorable impulse.

The Paris correspondent of the London Morning Chronicle says it is rumored that the bank has been again pressing for a suspension of cash payments, but the Emperor is firm in his refusal.

The Papal Charge D'Affaires at Madrid, has entered a protest against any return of Queen Christina to Madrid. The Spanish Cortes said to have warmly resented this insult.

On last accounts from the East state that the differences between England and Persia will very far from being accommodated. The representatives of Erzroum and Russia would make another attempt at reconciliation as soon as the Shah came to Teheran, whence he had fled for fear of the cholera.

France.

The rise in corn had been checked, as the crops exceed the average, and the foreign arrivals are ample.

The Bank of France was again purchasing gold. The final quotation at French three per cents. showed an improvement of one-fourth per cent.

General News.

The case of Serpents question has not been satisfactorily adjusted.

The French squadron has been ordered to cooperate with the English fleet.

An Austrian squadron consisting of three frigates and six gunboats has been ordered to Constantinople.

Baron Hugh enhein, the Russian Councillor of State has arrived at Vienna, with despatches from St. Petersburg relative to the affairs of Naples and Montenegro. Russia will not recognize the principle of the holy alliance, but will endeavor to procure the co-operation of Austria in the Neapolitan policy.

Naples.

The latest accounts state that the King was less disposed than ever to make concessions.

The reactions of Naples was still delayed although events at that capital seemed to leave them no alternative.

The Journal de la Corse, published at Ajaccio, of the 30th ult., says, "Two English steamers will come into port to-day, and have orders to wait for despatches to be received by telegraph. Other vessels of the same nation are expected, it is said, to-day or to-morrow.

The English Vice Consul has received despatches for the commander of the Duke of Wellington which lead us to believe that the English squadron will not be long in arriving.

Russia.

The discovery of coal of most excellent quality, in the Ural Mountains in Russia, is considered beyond doubt.

Spain.

The latest intelligence is that a royal decree had appointed the commission on Ramon's resignation a new one with M. Casalins as its president.

Switzerland.

One hundred delegates of the people assembled at Morges, and constituted themselves a Central Committee, declaring the sovereignty of the people endangered from monarchical intrigues.

Denmark.

The Danish Ministry had not been formed, all endeavors had failed. The Chambers were prorogued till the 1st of December.

Liverpool Markets

By the steamship North American at Quebec.

LIVERPOOL, 7th. The continued bad weather and the deteriorated condition of English corn, but American is freely taken by consumers, and at our market to-day a good business was done at an advance of 1 a 2d per 70 lbs for all qualities. Red wheat 9s 6d a 10s 3; a 10 6d. Flour is scarce and in demand at 1s per bbl advance. Corn is very chief holders not pressing sales; mixed 35 a 37s per qrs. Pork market unchanged—beef, no sales.

SECOND DESPATCH.

Later from Nicaragua.

NEW ORLEANS, Oct. 25.

The steamship Tennessee has arrived here with later dates from Nicaragua.

Gen. Walker, finding the enemy advancing in force, withdrew the small force there, when the enemy, 4,000 strong, occupied the place. Gen. Walker then left a small force of Granadians and advanced towards Massaya with 1000 men, and meeting the enemy on the 12th, near the city, repulsed them, driving them back to Masaya, where a battle was fought, lasting all night. At daylight a courier arrived from Granada, stating that 1400 Guatemalans and natives were hemming that place. Gen. Walker, on receiving this information, immediately marched to the relief of Granada and arrived on the heights surrounding the city in the morning of 13th at 10 o'clock, and found the city barricaded by the whole force of the enemy. He charged upon them and drove them from their posts, capturing their commander, and all their field pieces, and routing them from the city with great slaughter. The loss of the enemy was 1100. Gen. Walker's loss was 10 killed and 30 wounded.

Gen. Walker would immediately march on Masaya and Leon. His troops were in the best spirits.

The citizens of Granada held a government meeting 24 hours against the force of the enemy, and were vigorously defending the place when Gen. Walker arrived.

Messrs. Lawless, Wheeler and Ferguson, American citizens, who have had no connection with Nicaraguan affairs, were murdered by the natives.

The Steamship Arabia.

HALIFAX, Oct. 22, 11 P. M.

Weather hazy and dark; no signs of steamer Arabia from Liverpool, now due at this port.

The Exhibition of Horses.

BOSTON, Oct. 22.

The exhibition, notwithstanding a damp, disagreeable day, was attended by about 26,000 people, including a great many ladies. In the forenoon, there was an exhibition of stallions. A fine display was made. Then followed a trot of green horses no over five years of age. Nine were entered. After four heats, Tom Carpenter, of Boston, took the first prize of $100; Bells Air, of Lawrence, the second, of $50; Nat Baker, the third, of $25. The great race for $1000 between Ethan Allen and Hiram Drew created great interest. Ethan Allen won it in three straight heats—time, 2.44, 2.40¼ and 2.40¼. The Drew horse behaved badly on each heat, breaking frequently. After this race, there was a trot under the saddle, between Plemachus and Albany Girl for $25, and $15 purses. Plemachus took the first prize. Another scrub race for $25 was won by Know Nothing.

To-morrow the great trot between Lancet and Flora will take place.

Pennsylvania Election.

HARRISBURG, Oct. 22.

All the counties are officially in but 10, and they are pretty accurately known. The total democratic majority for Canal Commissioner is 2150, less than three votes in each township in the State.

The democratic majority in the Legislature is 3 votes on a joint ballot.

LATER.—Official returns received from the counties in the State, except Elk and McKean, show a democratic majority of 2876.

Last year the two counties not heard from gave a union majority of 76.]

Various Matters.

NEW YORK, Oct. 22.

Part of the crew of the bark Jas. Hall, wrecked on Florida Reef, arrived here to-day, in schr. C. Sanford, from Key West.

CLEVELAND, Oct. 22.

Rev. Frederick Baraet, pastor of St. Mary's Catholic Church, was arrested yesterday, on a charge of whipping to death a Sunday School scholar, named Formast, because she attended the Ragged school.

New York Markets.

NEW YORK, Oct. 22.

Flour—Common to state 6.40 a 6.60; Upper Lake 6.60 a 6.70; common to good Ohio nominal; extra Genesee 7.40 a 9.00; Southern firm; mod to good 7.10 a 7.55; fancy and extra 7.60 a 8.05; Canadian steady; superfine 6.60 a 6.70; extra 6.75 a 7.70.

Molasses quiet. Cuba Muscovado 44 a 46.

FIRE.—The barn connected with the dwelling-house of William A. Blake, Esq., on Summer street, was nearly destroyed by fire last night, about 12 o'clock. By the prompt and efficient efforts of the department the house was saved from essential damage, although directly adjoining the barn. The fire is attributed to incendiarism.

AMBROTYPES!
Rooms---No. 1 Main Street.
THE subscribers have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently opened a new and spacious suite of Rooms in the city for making Ambrotypes.
The genuine Ambrotype, (among other things that distinguish it from all other pictures,) is taken upon fine plate glass, upon which is placed a white glass, the two being united by an indestructible gum, thus securing it from dust, dampness, or liability to damage from any source.—The pictures are not reversed, are free from that unpleasant reflection peculiar to the Daguerreotype, and are the only photographic pictures that cannot change.
Those having pictures they wish to preserve can have them copied by this process.
The public are respectfully invited to examine the pictures at our Rooms,
Entrance next door North of No. 1 Main Street.
N. B. The genuine Ambrotype can be obtained only at our Rooms.

Worth Reading.
WHEN, by long study and many experiments, a physician has discovered a new principle in medicine, by which pain may be removed and disease cured, more surely and effectively than before, it immediately becomes his duty so to bring it before the public as to give to all an opportunity to profit by his discovery. For this reason the proprietor of the *genuine* Allied Ointment and Syrup offers his preparation, to all who are afflicted with Scrofula, Salt Rheum, Cancerous Humors, Fever Sores, Pimples, and other eruptions, with the assurance that in nearly every case where they have been tried they have effected permanent cures. Every necessary reference to persons in his vicinity who have been cured by these.
Sole Agents for Bangor and vicinity.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE

Keep your feet dry, and you will seldom need a Physician

IS at not a truth that when shoes are worn often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff, and cracks but when it is well preserved it is remedied by the application of this preservative, it remains soft, and entirely impervious to water

After being engaged for 20 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather At last by a chemical process I discovered a preparation which perfect harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, renovating all diseases arising from Excess of Mercury, exposure and imprudence in life, thereby producing internal diseases arising from an impure state of the Blood and the only reliable and effectual known remedy for the cure of Scrofula Salt Rheum Scald head Ulcerations of the Throat and Legs Pains and Swellings of the Bones, Tetter Pimples on the Face and all Scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States and have given the most perfect satisfaction in every instance in which they have been employed Without a single exception, country, physician or private individual they have invariably given the most decided and unequivocal satisfaction and produced the most salutary and beneficial effects. Numerous cures have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the strongest terms the value of these medicines in their opinion, for all cases of private complaints and the proprietor recommends Helmbold's preparations of Extract Sarsaparilla and Buchu and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua is necessary in order to take up the extractive matters and, in consequence, are most frequently improperly made and not unfrequently much impaired, if not rendered totally inert by the injudicious or unskillful management of those unacquainted with pharmaceutical preparations. It is the order of the highest consideration and importance to the sick and to the faculty that the most the standard preparations of uniform strength should possessing the most advantageous To effect this end and convince the afflicted and doubting that we have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to incorporate the medicine in the form for their exhibition. The experiments have resulted most favorably and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to a decoction diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla of the decoction, as usually made

PROFESSOR WOOD'S

HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all scrofula, and all other cutaneous eruptions, such as scald head &c It will cure, as if by magic, nervous or periodical headache, making the hair soft glossy and wavy, and preserve the color perfectly, and the hair from falling, to an extreme old age

The following is from a distinguished member of the medical profession

St Paul, January 21, 1855.

Professor O J Wood—Dear Sir: Unsolicited, I send you this certificate After being nearly bald for a long time and past my noted all the hair restoratives extant, and having faith in none, I was induced on hearing of yours to give a trial I spread myself like the hands of a barber and plied my head rubber with a good stiff brush, and the Restorative was then applied and well rubbed in Before I was gone 20 I will repeat every morning and in three weeks the young hair appeared and grew very fast Now at 45 it stands quite a close thick head of hair, black, and strong—soft and pleasant to the touch whereas before it was harsh, and wiry, whilst the parts where it had fallen off were quite smooth and bald. I shall keep a good and perfect crop of hair Now I find recommending things and articles has not been of late a part of my profession, but have no case where any person has been really benefited by any of the various quackeries of the day, and it really gives me pleasure to record the result of my observations I have recommended your preparation to every one that I can reach as a large and general assortment of blood purifiers The people here know its effects as I have used it much time and often myself, and I find it a good and perfect preparation for what it purports to be, and I do not hesitate to say that I have not seen the
